anteed by Gehring's pharmacy.

News was received in this city yesterday, which quited the concern of many of the merchants. This word was that the Orient road will not use the Burton Car Works for their shops. There was a great deal of opposition to such a move as the merchants in the city argued that this would practically be building up another town. The Orient officials have sont word that they will not use the Burton Car ores. Their objection is to Dr. Mackey, in Order to Be Fair and the number of other railroad tracks they Impartial to All Who Have Not would have to cross to reach the point, from the probable location of their freight depots here.

It was said yesterday that a definite selection of the site for the shops would be made this month, and that it would be in the present city limits.
